SHEARLING GLOVES COLLECTION 2026

Premium Genuine Shearing | OEM | Private Label | Custom Packaging

ABOUT US

For more than two decades, Canalfur has focused on turning traditional Eastern craftsmanship into tangible warmth for customers around the world. With a team of over 100 skilled employees and an annual output of around 300,000 pairs of gloves, we specialize in shearling gloves, hats, boots and related winter accessories.

We source premium Australian shearling and transform it in-house into products that are mainly exported to the United States, Russia, Canada, Germany, the United Kingdom and other markets.

Guided by the principles of quality first, integrity above all, and customer-centric service, Canalfur is more than a manufacturer—we are a reliable bridge connecting the origin of quality materials with the global market.
